

- Strengthen provision and outcomes for children with disabilities and additional support needs
- **Be physically and emotionally healthy**
 - Increase the number of children and young people with a positive childhood experience and good emotional health and wellbeing
 - Increase the number of children who have healthy and active lifestyles and participate in physical activities
 - Reduce the number of children and young people who smoke or misuse drugs or alcohol
- **Be safe from harm or fear of harm within their communities**
 - Reduce the number of young people involved in offending and reoffending
 - Reduce the number of young people involved in or who experience bullying, racial harassment or discrimination
 - Reduce the number of young people affected by domestic violence
- **Be free from the effects of poverty and inequalities**
 - Increase the number of school leavers moving on to positive destinations in education, employment or training
 - Reduce the number of young people who are homeless for in temporary accommodation
 - Reduce the number of adults with literacy and numeracy difficulties

Agreed Early Intervention Priority Areas (in the context of the above)

- Alcohol and Drugs
- Looked after children
- Mental health and wellbeing
- Parenting
- Exclusions and truancy

Priority will be given to activities which can clearly be linked to the early recognition and intervention in the priority areas already described.

Relevant indicators for Early Intervention

Already identified as relevant by the Fairer Scotland Fund Implementation Group:

- Reduction in the number of children assessed as needing formal social work intervention
- Reduction in the number of young people offending
- Reduction in the number of young people requiring to be educated outwith mainstream provision
- Reduction in the number of people going into the independent, or out of authority, placements
- Reduction in the number of children received into care.

Additional measures and indicators will be developed in line with those within the strategic objectives and existing measures in the Integrated Children and Young People's Plan. These indicators will be monitored at a city and priority location basis to determine the effectiveness of identified actions
